1. In column one, add the number of most responses for each of the statements designated as S, A, H, SC, and F and enter the number in the appropriate boxes. The total number of most responses must equal 6. If it does not, please refigure your most responses.

2. In column two, add the number of least responses for each of the statements designated as S, A, H, SC, and F and enter the number in the appropriate boxes. The total number of least responses must equal 6. If it does not, please refigure your least responses.

3. Subtract column two (least) from column one (most) and enter that number in column three. This number may be a negative number.

4. Plot your score for each of the five spiritual passions on the graph, connecting the points to form a line graph.
